PrestaShop Setup Guide

Obtaining the API keys from PrestaShop

Visit [this page](#) to acquire the credentials to set up your sales channel. Our page provides step-by-step guidance on obtaining these credentials, which are essential for the setup process.

Installing the PrestaShop Sales Channel

To add the PrestaShop sales channel to your Channels account, kindly adhere to the following steps:

1. Access your account and go to the left side of the screen. Click the "Stores" button.
2. If you already have a store, click "View Store" on the right side of the screen to access it.
3. To edit an existing store, click the edit button on the right side. If you need to create a new store, click "+ ADD" above, name it, and use the edit button to make changes.
4. Click "+ ADD" in the Channels section to begin the installation.
5. A window will appear in the centre of the screen. Choose "PrestaShop" from the available channels list.
6. Provide the required information:
 - **Channel Name:** In the field provided, you can enter any name. However, it is recommended that you choose a name that has meaning to you, such as "PrestaShop," as it will serve as an apparent reference for the source of the order in the future.
 - **Domain:** This is where you should enter the name of your store, as it will appear in the URL. For example, if your store name is "ABC Company," you should enter "<https://abccompany.prestashop.com/>."
 - **Web Service Key:** Please enter the key obtained through your PrestaShop earlier.
7. After filling out the fields, customize other options, then click "Save" in the bottom-right corner.
8. You'll be back in the recently installed channel. Activate it at the top of the screen using the "Is Active" button.

Congratulations! You've successfully set up your PrestaShop sales channel on Channels. You can now sell products on PrestaShop and manage orders from your Channels dashboard.
