Wish Setup Guide

Obtaining the API Keys from Wish

Visit this page to acquire the credentials to set up your sales channel. Our page provides step-by-step guidance on obtaining these credentials, which are essential for the setup process.

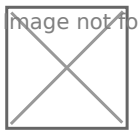

Installing the Wish Sales Channel

To add the Wish sales channel to your Channels account, kindly adhere to the following steps:

1. Access your account and go to the left side of the screen. Click the "Stores" button.
2. If you already have a store, click "View Store" on the right side of the screen to access it.
3. To edit an existing store, click the edit button on the right side. If you need to create a new store, click "+ ADD" above, name it, and use the edit button to make changes.
4. Click "+ ADD" in the Channels section to begin the installation.
5. A window will appear in the centre of the screen. Choose "Wish" from the available channels list.
6. Provide the required information:
   - **Channel Name:** In the field provided, you can enter any name. However, it is recommended to choose a name that has to mean to you, such as "Wish," as it will serve as an apparent reference for the source of the order in the future.
   - **Client Key & Secret:** Please enter the information you obtained through your Wish platform earlier.
   - **Fulfilment Origin Country:** You must fill in an important field correctly. When a customer chooses a courier company other than the ones Wish accepts, Wish requests a distinction between shipments made within the same country and shipments made to a different country. So, you need to use the ISO code of the country where your shipments will be made. For example, if your shipments are made to Italy, you must enter "IT" in this field.
7. After filling out the fields, customize other options, then click "Save" in the bottom-right corner.
8. Click "Copy Connect Link" to copy a URL. Paste it in your browser's navigation bar to reach the Wish connection page.
9. Follow the channel connection page instructions:
   - Click "Connect."
   - Proceed with the Wish integration by following the instructions.
10. Once connected, return to channels by clicking "Continue."

11. You'll be back in the recently installed channel. Activate it at the top of the screen using the "Is Active" button.

Congratulations! You've successfully set up your Wish sales channel on Channels. You can now sell products on Wish and manage orders from your Channels dashboard.
